PERSONAL STATEMENT

My personal dream is to glorify God through creative worship, guiding His people to a closer walk with imaginative leadership and ever-growing dependence on my perfect Creator.

From a young age, I have been drawn to music and the power of creative communication. I have been blessed with amazing opportunities to lead and take part in authentic worship. As God grants me the forum, I aspire to equip myself and others to follow Him more clearly and utilize our gifts and talents more effectively.

The past eight years of full-time vocational ministry have only stoked and fueled the fire of my call to use my talents for the Kingdom. I have come to embrace concepts and values such as collaboration, creative thinking, organization, professional discipline, and refusal to view any inspired goal as impossible. If He is for us and our mission, then who or what can truly stand against us?
